# 755<sub>e</sub>

Heavy duty, preset multi-length,  
electronic tape dispenser

**BP755e Electronic Tape Dispenser**

Rugged and easy to operate describe the BP755e. This state-of-the-art electronic tape dispenser offers the operator 20 preset choices from 6" to 75" – with the push of a button.

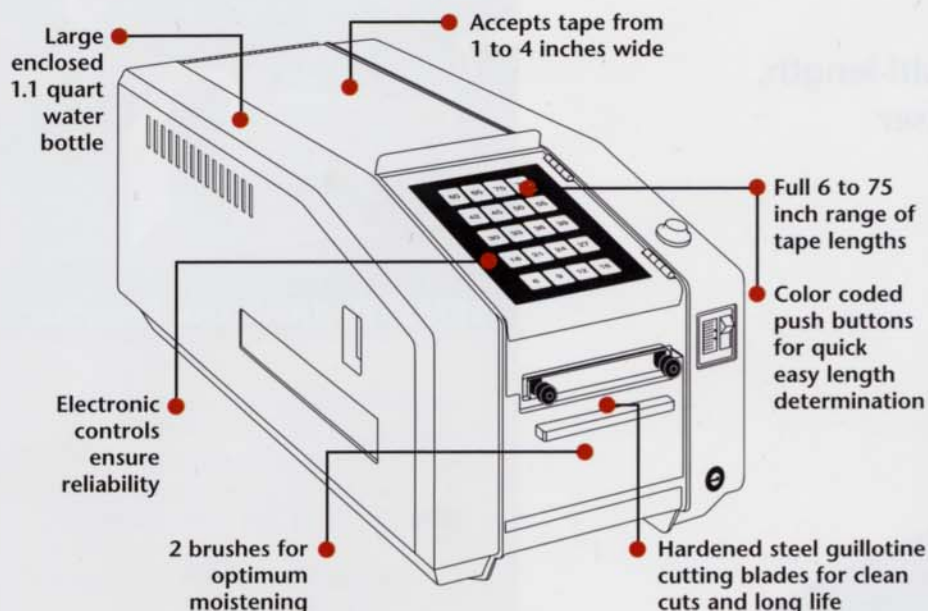

- Color-coded, soft-touch push button operation, dispenses tape from 6" to 75". The random button allows an infinite choice of lengths
- Two water brushes for uniform wetting
- Top-heater to ensure all the tape's adhesive is reactivated
- Heavy duty dual sheer cutting blades for clean cuts and long life
- Rugged steel frame construction
- Large, enclosed water reservoir
- Handles both reinforced and paper tapes – from 1" to 4" wide
- Modern styling

The BP755e is best suited for medium to high volume production, applications where up to 4" wide tape is required or where a variety of different tape lengths are needed. The BP755e is ideal for furniture, mattress and appliance manufacturers plus any modern, high-tech packaging environment.

## Reinforced Tape – The Professional's Choice!

Virtually every major mail order house and shipper in the United States uses reinforced tape. So should you!

Do you ship heavy or large cartons? Is the merchandise you ship of high value? Do you ship many sizes and configurations of cartons? Are your cartons typically over stuffed or under stuffed? Are you a pick-and-pack operation, a frozen food operation, or a manufacturer or distributor with a wide variety of items? Have you had a problem with in-transit pilferage?

If the answer is yes to any of these questions, you should consider the advantages of reinforced tape and join the packaging professionals.

### Advantages:

- Strong secure seal
- Neat appearance
- Easy to use
- May be imprinted during application
- Doesn't stick to itself during application
- Only one strip necessary for complete security
- Works well in dirty, dusty environments
- Permanent bond formed when the gummed adhesive penetrates the corrugated board
- Unaffected by extremes of cold, heat, light or humidity
- Tamper evident if the seal is compromised
- Even when damaged it retains strength – it doesn't run, tear or stretch
- Environmentally friendly and recyclable
- Eliminates repetitive wrist motions of hand-held tape guns
- Economical when used in conjunction with a Better Pack® tape system

The Better Pack® Tapeculator® is a unique, yet simple device provided with every BP755e. Simply line up a package with the mark on the Tapeculator and note the color at the end of the package. Press the corresponding colored button on the BP755e and you have the precise length of tape needed for the package. No more measuring or wasted tape.

### Available Options

- **CodeTaper®** - Imprints the tape with your custom message as it's dispensed. This in-line process improves productivity plus it identifies merchandise and helps to discourage in-transit pilferage.
